COLOR AND MATERIAL OPTIONS

POWDER COAT COLOR OPTIONS

Most DuMor products are available in your choice of several color options in a super durable baked-on polyester powder finish.

Additional RAL colors are available at an extra cost—consult your local DuMor Representative.

WOOD

DuMor has selected the highest grade woods available for use on our products. "C" & Better Douglas Fir and Ipe are offered as standard wood options. Douglas Fir will be delivered coated in a clear preservative. Due to its density and estimated longevity, left uncoated, Ipe will be delivered in its natural state without preservative. As a natural product of our environment, wood will weather when placed outdoors. Signs of weathering include splitting, checking, and changing color. These are not covered by DuMor's warranty. Wood colors will vary.

RECYCLED PLASTIC

The high-density polyethylene raw material utilized in our recycled plastic furnishings is derived from post-consumer bottle waste resulting in a product that is over 90% recycled.

WOOD GRAIN RECYCLED PLASTIC

The longevity and Eco-friendliness of recycled plastic lumber with a feel and depth reminiscent of wood. Wood grain recycled plastic is extruded with a multicolor tonal streaking and etched with a wood grain texture to achieve a realistic wood like appearance and feel. To truly appreciate this product it needs to be seen and handled, ask your Rep for a free sample. Plastic lumber is comprised of 95% recycled content. Only available on select products.

Please note that due to variations in photographic reproductions, natural wood grains and colors shown throughout may not be exact.
Please contact your local DuMor Representative for color and material samples.

THE DUMOR DIFFERENCE

THE EXPERIENCE Since 1984, DuMor has focused on combining the best products, people and Representatives to deliver a superior customer experience. Our people, manufacturing the finest products, are represented by teams of talented, dedicated individuals across the U.S. and Canada who deliver the DuMor customer experience on a local level. Company and Representative dedication to customer service has always been at the forefront of our business model. From your initial discussion with a DuMor Representative, through the specifying and manufacturing processes to final product delivery, we are driven to provide an exceptional customer experience.

THE QUALITY A cornerstone in the original DuMor vision was to design and manufacture outdoor furniture of exceptional quality. We are known throughout the industry as a brand that exemplifies the value of well built, superior quality products. Based in central Pennsylvania, DuMor is proud of our dedicated craftsmen who build each product with precision. Established and trusting relationships with quality vendors ensure we source the best raw materials for use in manufacturing. Efficient, quality focused manufacturing processes coupled with our people and materials enable DuMor to set the standard for quality in the site furnishing industry.

THE VERSATILITY Certain unique spaces demand a product with a perfect fit. At DuMor, we meet that challenge by working with Architects and Project Planners to bring custom product ideas to life. We have a dedicated team of designers and draftsmen who specialize in making custom products a reality in a timely manner. Additionally, changes to standard products such as additional armrests, custom color matching, unique bench length, and laser cut designs are no problem. We bring to the table decades of experience making site furnishings that turn your vision into reality.

THE DESIGN Good Design Matters. Ingrained in our culture is a desire to consistently introduce new and relevant products for our customers. Relevant means we aspire to have a product line as extensive and diverse as the projects that Landscape Architects and Planners design. Our goal is to design site furnishings that fit any space whether matching a contemporary space, accentuating traditional architecture, or blending into the nature of a park. The DuMor product line lives through the weather and industry trends because good design is timeless.

WHY WE DO WHAT WE DO We believe great outdoor spaces make the world better. We think communities flourish when they have public space to enjoy. We think commercial spaces should include functional site amenities. We want to make spaces more comfortable, accessible to everyone, functional and more beautiful. It's a simple thing that drives us. We love what we do!

SPLIT STREAM RECYCLING

40-RC Split Liners and Recycle Lid

The "40-RC" denotation on the end of certain product numbers indicates the receptacle has two 20 gal. semicircle liners and a split material lid (as shown right).

- The following receptacles can be purchased new with this option: 41, 70, 84, 87, 89, 102, 107, 148, 157, 158, 170, 200/300, and 432.
- A split stream recycling retrofit kit can also be purchased for most existing DuMor units.

**Vinyl lettering shown on recycling covers above is not available on any textured powder coat finishes.*

CUSTOM PLAQUES

An attractive and enduring way to show sponsorship of a DuMor bench is with a dedication plaque. DuMor plaques are made of durable etched zinc with a bronze style finish. Zinc plaques are long lasting and offer versatility for etching detailed designs, crisp text, illustrations, and photo transfers. DuMor offers plaques in a wide range of sizes and shapes to meet specific needs. Most DuMor products can be fitted to display a dedication plaque; ask a DuMor Representative if your chosen product can accommodate a plaque to fit your specifications. Dedication plaques can be used in many ways including, remembrance of a loved one, company logo, town or city name, quotes, sports teams, school name, or family name. Given the versatility of DuMor dedication plaques on site furniture, many communities have had great success fully funding both benches and plaques with "Sponsor a Bench" programs which allow people to contribute to the community and place a message on a plaque.

Black and white camera-ready artwork is required for logos or special graphics. (Note: All requests are subject to our review and approval.)

- DuMor mounts plaques so they are flush with seating surfaces

CUSTOM CURVED BENCHES

With decades of experience creating site specific curved and continuous benches, DuMor's custom product department can design benches to virtually any radius your space requires. Contact a DuMor Representative with your bench preference and dimensions, and we will design a custom bench for your approval.

DUMOR CUSTOM PRODUCTS

In addition to our comprehensive selection of standard products, DuMor provides custom design and fabrication options to meet the needs of designers and architects whose requirements aren't always met by off-the-shelf site furnishings. Choose from a variety of high-quality raw materials including wood, steel, and recycled plastic, or customize with plaques and lettering options. DuMor's design flexibility makes creating a custom indoor or outdoor space easy and affordable. You'll see that DuMor's reputation for style and durability is reflected in every custom product. For more information on custom fabrication, please contact your local authorized DuMor Representative or call 800-598-4018.

SUSTAINABILITY COMMITMENT

► Our Commitment to Sustainability

DuMor recognizes the importance of using recycled material in our entire product line. This reduces solid waste volumes in landfills, helps conserve natural resources, and limits the environmental impacts resulting from the extraction of virgin materials.

► Pre- and Post-consumer Recycled Content

We utilize pre- and post-consumer recycled material in all of our products. Pre-consumer material is material diverted from the waste stream during the manufacturing process. Post-consumer material contains waste material generated by households or by commercial, industrial, and institutional facilities in their role as end-users of the product which can no longer be used for its intended purpose. Used milk jugs and old railroad tracks are examples of post-consumer materials used in our products. Please contact your local DuMor Representative for details on the pre- and post-consumer recycled content of our products.

► Eco-friendly Material Composition

Our product line is composed of three primary materials: steel, recycled plastic, and sustainably-harvested wood, all of which possess eco-friendly attributes.

Steel- The majority of steel in our products contains over 80 percent recycled material, most of which is post-consumer. Our primary supplier of steel utilizes the Electric Arc Furnace (EAF) technology, which takes advantage of post-consumer scrap material for major feedstock, unlike blast furnace operations which use mined iron ore as major feedstock.

Recycled Plastic- Many of our products feature the PolyTuf Plastic Lumber product. PolyTuf is manufactured using 100% recycled milk jugs (post-consumer high density polyethylene). We also donate our scrap plastic to the manufacturing of new PolyTuf product, further reducing waste stream volumes.

Sustainably-Harvested Wood- We make it a priority to purchase only sustainably-harvested wood derived from stringently-regulated timber source locations, including: California, Oregon, Washington, and British Columbia.

► Compatibility with LEED® Rating System

Leadership for Energy and Environmental Design (LEED) is the world's most well-recognized and sought-after green building rating system, created and administered by the United States Green Building Council (USGBC). Achieving LEED certification is contingent upon earning credits, which provide guidelines for the design and construction of high performance, durable, healthful, affordable, and environmentally-sound buildings. Many of our products could help design teams earn LEED credits. Please contact your local Representative to learn more about how DuMor's products can help your project achieve LEED certification.

Please contact your local DuMor Representative for more details on the eco-friendly attributes of our product line.

TERMS AND CONDITIONS

Prices are F.O.B. Mifflintown, PA, and are subject to change without notice. Terms are net 30 days from date of invoice to those customers with approved credit. All others, payment with order. Freight charges are as determined and collected by the carrier unless DuMor is instructed to prepay and add to the invoice for the merchandise. All products manufactured by DuMor are warranted against defect in materials and/or workmanship and in accordance with our published specifications. In addition to a standard one-year warranty on all products, DuMor also offers a limited 20-year warranty against structural failure of all steel bench frames, steel bench assemblies, table frames, litter receptacle frames, and all cast iron and aluminum bench supports; limited 5-year warranty against structural failure of Douglas Fir and Ipe wood slats; a limited 10-year warranty against structural failure of recycled plastic; and a limited 3-year warranty on bike racks. These warranties cover only those items which have been installed according to our detailed instructions and do not cover abnormal use or vandalism. Contact your local DuMor Representative for details of the extended warranty program. DuMor is not responsible for loss or damage of products in transit. Any shortages or damage should be noted on the freight bill before signing. In the interest of product improvement, DuMor reserves the right to alter product design, material selection, or construction without notice. The following benches are protected by U.S. Patent D526-814: Bench 160, 165, 168, 169. The following benches are protected by U.S. Patent D525-809: Bench 164, 166. The following benches are protected by U.S. Patent D632-104: Bench 185, 194. The following benches are protected by U.S. Patent D629-234: Bench 186, 195.
